Suntex,

Thank you for partnering with us for our recent boat outing! The hard work and dedication by your team ensured the event was a huge success. Our team had a great time and we look forward to partnering with you in the future.

Suntex did an exceptional job planning the event down to the smallest detail so our guests were able to have a great experience! We were pleased with how smoothly the logistics for the event were executed. We had over 150 team members in attendance and organization of the event was impeccable. Our guests did not have to wait for food and drink or to board a boat. There were plenty of activities that kept them engaged and having a great time.

We also received overwhelmingly positive feedback about the level of service provided by your team. All of the team members we interacted with were very fun and engaging! Many of our guests recalled your team members' ability to cater to their unique interests in order to direct them to the boat, driver or activity that most suited their tastes. Our guests felt they received exceptional service from the moment they arrived at the event. In addition, the variety of activities on the catamaran was a huge hit! Captain Mike and his staff provided wonderful service throughout the entire day! Our guests loved that they could get on the bigger boat to cruise around the lake while still having so many diverse activities at their disposal. On the smaller boats, the Pier 121 employees did an excellent job of catering to our guests. All the drivers were very friendly, helpful, and willing to tailor the experience to our needs throughout the day.

Thank you again for making our boat outing a success! The feedback from our guests spoke to the success of the event. We enjoyed partnering with your team during the planning phases for the event and were continually impressed throughout the day of the event. We would highly recommend your services throughout the community and look forward to collaborating with your team in the future!

Sincerely,

Hilton Social Committee
